MOST STARTLING CONSIDERATIONS!

Reflections for the Thoughtful. Strange that counties human beings exist and drag through life as do the beasts of the field, or the insects of the earth, evincing no more thought ar reflection than though the noble faculties of mind

were not vouchsufed to them.

Many such are husbands and fathers, upon whom are dependent the health, the well-being, and the impliness of a confiding and affectionate wife, with perhaps a family of children.

NOW GETTER IT HAPPENS THAT THE WIFE LINGERS FROM YEAR TO YEAR In that pitiable condition as not even for one day to feel the happy and exhibitating influence incident to the enjoyment of health. She may not be an invalid confined to her bed,

She may not be an invalid contained to nee bed, or even to her room; as her pride, ambition and suergy induce and nerve her to take personal charge of her-household, even when her health will not admit of it; but she is nevertheless perceptibly sinking from day to day, and always miding. Thus, day after day, and month after routh tras-spire. Her health daily sinks, till finally even the hope of recovery so longer rouning. And thus

THE BLOOMING BRIDE, But a few years ago in the flush of health and youth, and buoyance of spirits, rapilly, and apparently inexplicably, becomes a feeble, sickly, de-bilitated wife, with frame amnolated, nerves un-strung, spirits depressed, countenance bearing the unpress of seffering, and an utter physical and

mental prostration. Sometimes this deplorable change may and does Sometimes this deplotance charge may and does arise from organic or constitutional causes. But oftener, by far oftener, to gress and inexcusable ignorance of the simplest and plainest reles of health as connected with the marriage state, the violation of which cutalis disease, suffering and misery, not only to the wife, but often

from the A must this continue I Shall we be wise in that concerns the cattle of our fields, our horses, our sheep, our caws, our oxed the nature and character of the soil we possess, the texture and quality of our goods and merchandise; but in all that concerns ourselves as human beings, with human concerns ourselves as amman congage, with mana-functions and passions, subject to great derange-ment, involving our future poace and happiness-in all that concerns the health and welfare of the wife of our affections, and the mother of our obt-dren; in all that concerns the mental and physical well being of those children, we should be im-mersed in the durinest and most. BENIGHTED IGN PANCE.

AS CULPABLE AS INEXCUSABLE! How long shall this ignorance prevail so produc-tive of its bitter fruits? How long shall the wife tive of its bitter fruits? How long shall the wish and mother be ignorant of the nature, character and causes of the various womb and saxual compilaints, emblitering her days by suffering—suffering often prolonged to years, eventuating in a complication of diseases utterly and hopelessity incurable? Shall, we for ever close our eyes to the results of physiclogical science by which we may arrive at an understanding of ourselves as men and women, subject to serious life-long enduring diseases, and perpetuating them to our children.

LET EVERY WIFE AND HUSBAND PONDER No husband or wife need be ignorant of what and happiness. That knowledge is contained in a little work entitled
